

WITUSOL

WTS TOKEN

INTRODUCTION

WTS Token, introduce WTS Token Crypto. WTS Token is created based on our admiration for SOLONA which makes WTS use the SOLONA network.

WTS From the term TEAM Witusol which is interpreted or abbreviated to WTS with the WTS Token symbol

This project was created by our Witusol team with the aim of developing and building the crypto world with a combination of technology and networks.

WTS TOKEN PROJECT OBJECTIVE

This WTS Token project is based on building and improving the world of crypto, technology and networks.

The project also aims to promote a healthy community in the crypto world. Why is there so much that can be achieved together without having to prioritize one's own interests

We hope this project can achieve its goals and be useful for the community and many people.

WITUSOL PROJECT OVERVIEW

The general overview of the Sitosol project is to compete healthily in the Crypto world, and we, the Witusol team, also want to be one of the best cryptos to be an example of a healthy and fair crypto

This project is also an art in crypto processing, how to make this project run smoothly and create strong security standards or exceed crypto standards. and also maintain and increase the value of WTS Token in the future in the long term.

WITUSOL VISION AND MISSION

VISION

The Witusol Team, with all the abilities and skills that each team has, has a specific goal that has been planned and scheduled in the agenda.

- We will create WTS crypto token in such a way that it is strong using prepared strategies to counteract all crypto market conditions.
- The team will try to make WTS Token move forward to enter all exchanges which will make WTS Token have more potential to increase its value strength.
- We as the Witusol team are sure that everything will be realized with what is being developed now and in the future, namely wrapping the WTS Token Crypto with a combination of technology and networks.

MISSION

- The Watsol team is very eager to achieve the targeted achievements for WTS Token. The target of WTS Token, namely in the introduction, is the achievement of a community that grows naturally and healthily.
- The Witusol team aims to make the appeal of WTS Token to be of interest to investors and liked by many people. The Witusol team will be transparent to everyone
- Tim witusol akan mengutamakan pemegang Token WTS, yang di pegang adalah Token WTS yang berpotensi menghasilkan keuntungan. dan mengarahkan Token WTS ke mitra atau kerjasama di exchange
- The team will also continue to develop the WTS Token for long-term purposes because the WTS Token will be used in several things, namely in life and the crypto ecosystem.

WTS CRYPTO TECHNOLOGY AND NETWORK

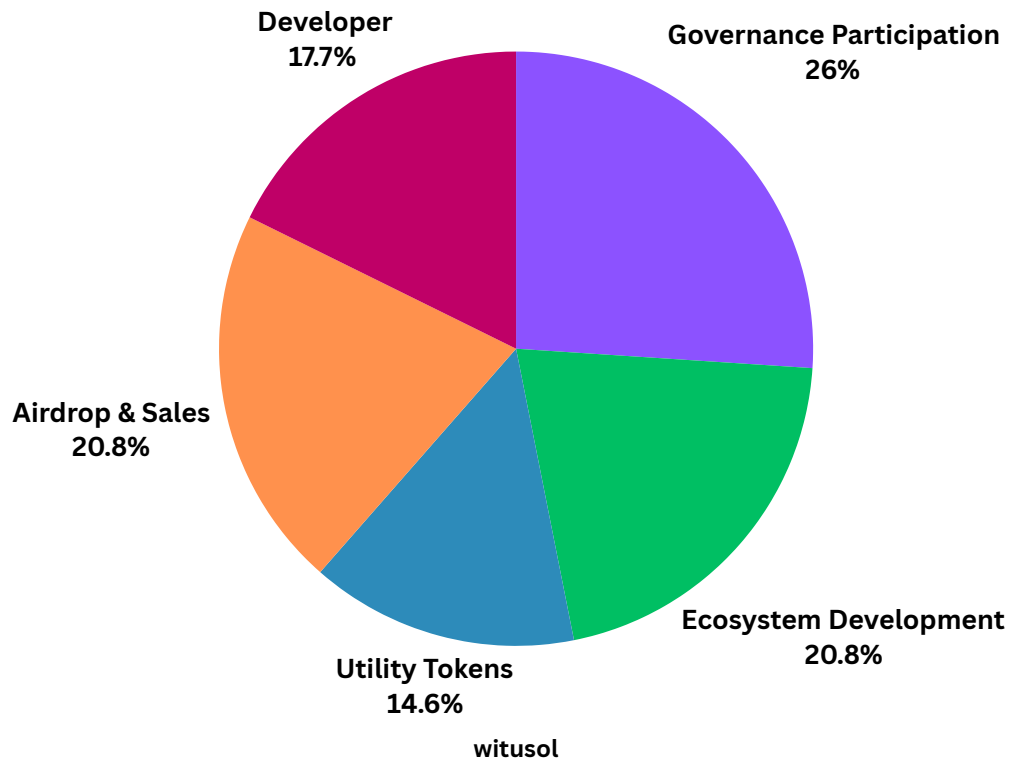

CRYPTO TECHNOLOGY

- **WTS Technology overview is WTS Token will follow the current technology. and will create a concept, namely Android APPS technology and OS. which later WTS Token can be used as a tool for buying and selling in transactions**

WTS NETWORK

- **We the Witusol team, are very interested in the digital crypto network, one of which is Crypto intelligence and crypto language programmers and techniques in each community that makes Crypro. Our big goal is to create our own blockchain so that it can cover our own network that can partner directly in our network.**

TOKENOMICS WTS TOKEN

Token Name: WITUSOL

Symbol: WTS

Decimal : 9

Blockchain : Solana

Total Supply : 1000,000,000 WTS

Token Distribution :

1. **Governance Participation : 26%**
2. **Ecosystem Development : 20,8%**
3. **Utility Tokens : 14,6%**
4. **Airdrop & Sales : 20,8%**
5. **Developer : 17,7%**
